---

I would like to contribute to your organization as a full-stack web developer[1], leveraging my ability to develop E-commerce, Asset Management, and Booking System[2] web applications using readily available web frameworks. With my passion for learning, I will be able to take part in empowering your team with my newly found coding expertise.

Being a Civil Engineering graduate from University of Santo Tomas, computation and logic are some of my strengths.

___Your_other_strengths_in 2-3_lines[3]__

<u>AREAS OF EXPERTISE</u>

---

[1] Can be replaced by "Back-end developer", "Front-end developer", "DevOps" etc.

[2] "E-commerce" "SNS" or any web app type of your capstone project 3.

[3] Pls put any outstanding episode, such as

- You were a working student

- You are from famous school

- You have been good at math

- You deploy or learn any specific IT technology topic

- You were awarded

etc.

Hard skills
- Git CLI
- Frontend: HTML, CSS
- Databases[4]: MySQL, NoSQL
- Scripting Languages[5]: PHP, JavaScript
- Frameworks[6]: Bootstrap, Laravel
- Libraries: jQuery
- SDLC Phases[7]: Development, Test, Deploy

Soft skills[8]
- Team player
- __Your_other_strengths_

---

[4] If you have any experiences, you can also add
"PostgreSQL"
"SQL"
"Oracle"

But please anticipate that skills you mentioned here may be checked upon technical interview. If you're not as confident as mySQL, it is better to be humble.

[5] If you have any experiences, you can also add "JAVA" "Ruby" "Python" "C" "C#" "C++" "Object-C" "Swift" "Scala" "Perl" "R" "Go" "VB" "VBA"

But please anticipate that skills you mentioned here may be checked upon technical interview. If you're not as confident as PHP, it is better to be humble here.

[6] If you have any experiences, you can also add "Vue.js". "Struts" etc.

But please anticipate that skills you mentioned here may be checked upon technical interview. If you're not as confident as Laravel, it is better to be humble here.

[7] If you have any prior experience, you may add below items. (Only with the experience within Tuitt coding bootcamp, it is better not to mention it)

- Requirement definition
(e.x. business needs, use cases)
- Baseline design / High-level design
(e.x. architecture level)
- Specific design / Detail design
(e.x. specific to implementation)

---

[8] Relevant skill to applying positions only. (=No extra-curricular skills)

PAMCON General Construction and Consultancy, Inc.   Metro Manila, PH

Project Engineer   *2017 - 2018*
- Estimation of materials and labor cost of project as well as variation orders.
- Drawing of project plans and proposals to the client.
- Site visits for actual site condition, measurement and supervision.
- Weekly report making and presentation of project progress.
- Coordination with procurement, operation, and accounting departments as well as the client.

Accomplishments:
- Contributed in various projects dealing with civil, electrical, demolition, mechanical, and plumbing works. [10]

PROJECT EXPERIENCE

Tuitt Coding Bootcamp   Metro Manila, PH

PEDRO - The Band   *2019 Feb*
- Band Website with Events Page
- Booking System
- Environment: Linux, Apache, NoSQL, HTML, CSS, JavaScript, Bootstrap, jQuery, Laravel, REST API, Fetch API [11]
- Mainly used MongoDB, Express.JS, Node.JS for backend development, Laravel framework for frontend development

bodega   *2019 Jan*
- Conceptualized Project-Based On-Site Construction Tools Borrowing System
- Asset Management System
- Sign-up / in / out
- CRUD Operations for both user and admin[12]
- Sorting of data by multiple columns

---

[9] If no professional experience, kindly remove the section.

[10] Include 1) the timeframe of delivery (e.g. 2-3 months) and 2) the size of the team involved. For example,
- Achieved 96% system functionality with 3 members in 3 months across the organization.
- Earn 4.3/5.0 as evaluation with 2 developers for 6 months
- Convert __ people to _, with __ for __ months
- Save __ man hours with __ for __ months

[11] You can add MongoDB, REST API, Express, Node.js, Passport, if used
[12] You can add PHPMailer and PayPal APIs if used.

- Search through the database with the aid of AJAX
- Environment: Linux, Apache, MySQL, PHP, HTML, CSS, JavaScript, Bootstrap, Jquery, AJAX, Laravel
- Laravel used as main framework for the project.

Alvender   *2018 Nov-Dec*

- Alzheimer's Awareness Organization Website
- Static website with Home, About, Contact and Gallery pages.
- Mobile Responsive Design
- Environment: Linux, HTML, CSS, Bootstrap

EDUCATION

480 HOURS INTENSIVE THREE MONTHS COURSE | Tuitt Coding Bootcamp, Metro Manila, PH
BACHELOR OF SCIENCE IN CIVIL ENGINEERING | University of Santo Tomas, Metro Manila, PH

ABOUT ME[13]

[14]

I am ninth of ten siblings. With ages 67 and 66, my parents are diagnosed with Alzheimer's disease / dementia. My siblings and I, despite some having each of their own respective families, have been working together in taking care of both of them, like taking them through constant doctor appointments, checkups, therapy sessions, and managing maintenance medicine.

I have always been fond of using the computer, surfing the internet and playing video games. When I was a kid I discovered HTML and CSS through an online gaming website and social media, and proceeded to create my first basic HTML webpage from there. Numerous times I have found myself excelling in different programming subjects throughout elementary, high school, and college education. Looking for a career change rekindled my old passion for programming, which led to my application for a coding bootcamp.

.
[15]

---

[13] Pls be yourself here! Hobbies, interests and other extracurriculars should go here, and not in the skills section above.

[14] With career shifters in mind (alternative):
I have always been a curious and enthusiastic individual. As an accounting major, I have always been curious how I can integrate IT with my day to day activities and improve the overall productivity and efficiency of how I do my work. I started out with small scripts to help automate my work, and then eventually made my way to creating small applications to help my colleagues as well

[15] Optional: Insert a comment, mention +careers.indiv@tuitt.com that your draft is done and you'd like feedback
